HOME BUILDING SERVICE

Professional help for

HOME PLANNERS

For SATISFACTION, ECONOMY AND CONVENIENCE, here is priceless home planning help. Every home in this Service is the work of experienced architects, directed by Weyerhaeuser, to give you the benefit of their expert knowledge of modern design, materials, construction practices and sound planning.

Selected "ranch type ramblers" chosen from more than 100 professionally planned popular small home designs, included in this Service, are illustrated on the following pages of this booklet.

Study these designs to see how skilled architects carefully consider the best use of every building dollar to assure home beauty and true living comfort . . . to help you secure the utmost in modern home value.

Weyerhaeuser Sales Company

St. Paul 1, Minnesota

CITY STYLE RANCH HOMES

Weyerhaeuser has chosen 31 one-story ramblers with floor plans and interior views. These popular designs are important to those who prefer single-level-living, free from stairs . . . long, low and modern lines . . . the city style ranch home.

DESIGNED FOR PLEASANT LIVING

The exterior designs reflect the best of modern trends with their artistic blending of materials, textures, and colors. The floor plans reveal comfortable living rooms; efficient modern kitchens; sizeable bedrooms and bath . . . and ample storage space.

ENGINEERED FOR SOUND CONSTRUCTION

The family planning an economical, well-built home will find Weyerhaeuser's 4-Square Homes are engineered for solid foundations, strong framing, rigid bracing . . . and the true economy that results from correct use of good materials. Ask your 4-Square Lumber Dealer to show you the plans in this Service.
